

NEW!

GLOW ON THE GO!

INTRODUCING ZILIS™ ULTRAGLOW POWDER STICKS!

With an easy-to-use formula and grab-and-go packaging, Zilis™ UltraGlow powder sticks make it easier to support your endocannabinoid system health wherever you are!†

- Stick packs are perfect for busy lifestyles
- Supports healthy weight management, promotes a healthy immune system, helps with situational stress, and aids with sleep during restless nights†
- Formulated with advanced ingredients, including proprietary hemp genetics
- Features enhanced bioavailability thanks to our proprietary microencapsulated formula†
- Preservative-free
- Delicious natural acai flavor

ENDOCANNABINOID SYSTEM SUPPORT†

The endocannabinoid system, or ECS, is a complex network of receptors that are found throughout your body, including your central nervous system, peripheral nervous system, and immune system. The goal of the ECS is to maintain a stable internal environment despite fluctuations in the external environment. Your

ECS is fueled by endocannabinoids, which are molecules produced by your body to interact with these receptors.

When the production of endocannabinoids becomes slowed or imbalanced, phytocannabinoids, which are cannabinoids produced in the hemp plant, can supplement what the body may be lacking.

CBD, CBDV, and THCV are just a few of the over 100 naturally occurring phytocannabinoids found in the hemp plant. CBD, CBVD, and THCV are non-intoxicating and work synergistically, playing a critical role in the entourage effect.†

FUN FORMULA, SERIOUS SCIENCE

Zilis™ UltraGlow powder sticks may remind you of a sweet, powdered treat, but the proprietary encapsulated formula offers enhanced bioavailability. The powdered UltraGlow starts working quickly, for a fast onset of action.†

Supplement Facts

Serving Size 1 Stick Pack (2 g)
Servings Per Container 30

Amount Per Serving	% Daily Value
Calories 10
